## SCRIBNER PUBLICATIONS

### The Life and Art of William Merritt Chase

BY CATHERINE METCALF ROOF

With letters, personal reminiscences, and illustrative material

Introduction by  
ALICE GERSON CHASE

The entire career of this intrinsically American painter is here covered. Beginning with his early impulse to draw, or, as he used to express it, "to make pictures for books," it tells of his brief, unhappy apprenticeship at Annapolis, his failure to make a satisfactory clerk in his father's store, and the final achievement of the opportunity to study art first in Indianapolis and then in New York. The description of his life in New York beautifully reflects the atmosphere of that renaissance of painting in Europe and America.

*With reproductions of the artist's work, \$4.00 net*

### Portraits and Backgrounds

HROTSVITHA, APHRA BEHN, AISSE, ROSALBA CARRIERA

BY EVANGELINE WILBUR BLASHFIELD

In this book Mrs. Bashfield considers such representative women as the Benedictine Nun of Gandesheim, Aphra Behn, the first professional woman of letters in England, playwright, poet, translator, and founder of the realistic novel: Aissé, the Greek slave and Rosalba Carriera, the Venetian pastelist and miniature painter.

*\$2.50*

### Concerning Painting

BY KENYON COX

Mr. Kenyon Cox, painter and critic, whose writings on art are the most illuminating and suggestive of their kind, has added to his "Classic Point of View" and "Artist and Public," "Concerning Painting," which is of equal interest and value to general reader and student.

*Illustrated. \$1.75 net*

## *Beyond Architecture*

*By A. Kingsley Porter of Yale University*

*Author of "Mediaeval Architecture," "Lombard Architecture," etc.*

Mr. Porter treats of broad principles applicable not only to architecture, but also to the other arts, painting and sculpture, even music and literature. He demonstrates that beyond architecture as eternal principles of beauty lie significance and content.

It is only in modern times that art has set itself no higher goal than art itself, and the abandonment of an ulterior idea has led to precipitate decline. Hope for the future of American Art, the author concludes, lies in a return to intellectuality. This is a revolutionary contribution to criticism which no architect, artist or person interested in art can afford not to read.
